

SHIVAM SHUKLA

Software Developer

Mumbai, Maharashtra | +91-8459784241 | shivam13jun@gmail.com

CAREER SUMMARY

Software Developer with over 2.5 years of experience specializing in JavaScript and frameworks such as React.js, Node.js, and Express.js. Experienced in building scalable web applications and implementing security features. Published several NPM packages focused on website security and domain extraction. Committed to continuous learning and delivering high-quality applications.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python
- **NodeJS:** Express, JWT, Socket.io, Mongoose, EJS, OAuth, Validations
- **ReactJS:** Redux, React-router, Nextjs, RTK Query, Context API, custom hooks
- **Databases:** MongoDB, MySQL
- **Tools:** Git, Cloud Panel, cPanel, MobaXterm
- **Testing:** Jest, Super test, Playwright

EDUCATION

- **Bachelor of Science in Information Technology (BSC-IT)**
Mumbai University, 2018-2021

PROFESSIONAL EXPERIENCE

Hands in Technology Pvt. Ltd.

MERN Developer

August 2022 - Present

- Collaborated with clients to understand requirements and deliver tailored solutions.
- Managed in-house and outsourced projects, overseeing front-end integration, testing, and back-end development.
- Solved complex problems and optimized projects to ensure error-free solutions, including website development and database integration (SQL and NoSQL).
- Ensured client satisfaction through meticulous attention to detail and collaboration with testers and other developers.
- Developed websites, integrated databases, and deployed projects to respective platforms.
- Adapted to both independent tasks and collaborative team projects.

Fitness First Nutrition Pvt Ltd.

Web Developer

January 2022 - August 2022

- Developed and maintained web applications using ReactJS and NodeJS to enhance functionality and user experience.
- Created dynamic features and optimized performance for various small-scale projects using PHP.

RELEVANT PROJECTS**Security Tool**

January 2023 - June 2024

- Developed a tool for enhancing front-end security and monitoring backend APIs for vulnerabilities.
- Created an NPM package for consistent security implementations across multiple projects.
- Performed vulnerability assessments, achieving a 75% improvement in security measures.
- Utilized MongoDB for efficient data management and application test case tracking.

Technologies Used: React.js, Redux, Playwright, Jest, Express.js, Node.js, MongoDB

C3-EXPRESS

February 2024 - April 2024

- Integrated APIs and implemented form validation for enhanced user experience.
- Developed custom hooks for pagination and resolved server caching issues affecting JWT tokens.

Technologies Used: React.js, Redux, RTK Query, Express.js, Node.js, MongoDB

LMP

March 2022 - Present

- Developed a real-time live chat application using Socket.io and the Cluster module for scalability.
- Integrated APIs and implemented advanced filtering features to enhance data presentation.

Technologies Used: React.js, Redux, Express.js, Node.js, MongoDB, Socket. io
